PROYECTA 10,000 - Request for proposals 2015
Since the establishment of diplomatic relations on January 26, 1944, Mexico and Canada have developed bonds of friendship and cooperation among federal, state and local authorities, and between institutions and civil society. Mexico and Canada signed a cultural agreement on 1976 where both countries made the commitment to improve the mutual understanding of the culture of each country and to promote the academic exchange of researchers, lecturers and students. Since then, Mexico and Canada have one of the most dynamic agendas on the fields of science, technology, environment, natural resources, among others. This involves hundreds of Higher education institutions and research centers in both countries.

During the visit of Prime Minister Stephen Harper to Toluca, Mexico, on February 2014, as part of the North American Leaders' Summit, the governments of Mexico and Canada agreed that education and innovation are among the strategic priorities of cooperation between both countries. In this context, Proyecta 10,000's goal for 2015 is to reach an academic mobility of 2,000 Mexicans in Canada. This year, the Mexican Ministry of Foreign Affairs will coordinate several groups of Mexican learners going to Canada throughout the year. There are four modalities of interest: English as a Second Language courses, professional/technical English courses, short term research programs, and certificate programs on specific areas (energy, engineering, environment, health, ICTs and manufacturing).

Therefore, the Ministry of Foreign Affairs kindly requests your serious consideration and the submission of proposals for available and certified programs, under the modalities described above. Please indicate through this questionnaire your interest your interest to participate in each modality and the characteristics of the programs of the institution that you represent (dates, costs, syllabus, among others).
