

UNIVERSIDAD DEL VALLE DE ATEMAJAC (UNIVA)

Description: Universidad del Valle de Atemajac (UNIVA) is a private Catholic university with a student population of 15,000 students in its 10 campuses located in 6 states of Western Mexico, Guadalajara being the city that hosts UNIVA's main campus. It currently has an academic offer of over 90 programs ranging from high school to graduate studies which are divided in 5 main academic schools: International Business, Management and Finance; Health Sciences; Engineering; Communication, Languages and Multimedia; and Social Sciences and Humanities. UNIVA is strongly committed to collaboration with partner institutions of Mexico and currently coordinates the Consortium of Internationalization of Higher education and its mobility in Guadalajara for Mexican and International students.

Interests: There is a very particular interest in meeting with BC universities and generating possibilities for collaboration, through an agreement of teaching and student mobility, especially in 5 major areas: Health, Engineering, Communication / Audiovisual Production, Social Sciences and Business, in particular, on Digital Art and Multimedia topics. The mobility can be through exchange programs or, through short stay programs where our students go to institutions in BC and do a diploma. In the same way, we are interested in inviting BC teachers to participate in our international teacher program "Global Summer" in which in recent edition we have the participation of 34 international teachers.

CONSORCIO JALISCO DE INTERNACIONALIZACION PARA LA EDUCACION SUPERIOR

(Jalisco Consortium for the Internationalization of Higher Education)

Description: Under the triple helix model, in conjunction with the Board of Industrial Chambers of Jalisco (CCIJ) and other private enterprise organizations, the former Jalisco Education Group becomes the Consortium for Cooperation and Internationalization of Higher Education of the State of Jalisco. It coordinates Federal and State policies, educational institutional activities and productive sector needs in regards to academic cooperation and internationalization of higher education.

Interests: We are interested in being able to link with the BCCIE in a dynamic that allows the linking of BC institutions with consortium member institutions on issues of teacher and student mobility in 5 major areas: Health, Engineering, Communication / Production Audiovisual, Social Sciences and Business. Of equal importance, we are interested in the development of joint research projects between the institutions of both regions.
